## Lori Adler Scholarship

Established 2019

Lori Adler taught business education for 37 years; 19 prior to joining the Bolton Public Schools community in 2001. In her 18 years at Bolton High School, Lori expanded the business program and created new avenues for students to explore. The world of business education has changed over the years and we were fortunate to have Lori guide us through. Lori has been the advisor for the Future Business Leaders of America since joining BHS. Through the years many of her students have been State award winners and some have qualified for the national FBLA competition. She was the Youth Forum advisor for 5 years, opened the Bulldog Express school store and worked with Junior Achievement guiding her students to teach business concepts to 2<sup>nd</sup> graders. Her enthusiasm and knowledge for business has launched myriads of students from both Windsor and Bolton to pursue a successful career in the financial world.

Due to Lori's vision and hard work, the Accounting, Marketing, and Personal Finance courses are articulated through Manchester Community College allowing her students to receive high school and college credit.

Mrs. Adler is admired by staff and students alike and is greatly missed.
