## Amy Kaiser Bahre Memorial Scholarship

Established 2024

This scholarship is in memory of Amy who passed away in February of 2024.

From an early start, Amy was keenly aware of the importance of education. Graduating with a teaching degree in Reading from Central Conn. State College, she began a life-long pursuit of helping children, young adults and others achieve their own goals through learning.

Amy's passion was really in listening to and helping others. She exuded this keenness in her early career as a reading teacher, in working for the Red Cross as a corporate engagement representative, and when she returned to education as a teachers' aid and paraprofessional. Amy truly loved to support her students and was inspired by being able to see how they grew from pre-school through high school.

You were selected for this scholarship because you demonstrate Amy's love and passion for supporting and nurturing others and her desire to open doors for people who want to help others achieve their goals in life.
