

The Bolton Scholarship Fund

Investing in the future...

Bolton Regional Lions Club Memorial Scholarship Established 2018

The Bolton Regional Lions Club began in June 1992 and was a Lioness Club prior to that. Lion Club members are recognized worldwide for their humanitarian services, especially to the blind and visually impaired. This part began when Helen Keller challenged the Lions to become “Knights of the Blind” in 1925. But that is just a portion of it. We also donate our time and fundraising proceeds to help out where needed in our local community – that is schools, senior citizens, area food shelters, convalescent homes, guide dogs, children's medical center, and care packages for our service people, just to name a few.

This scholarship is in memory of four of our previous lifetime members – Yvonne Bass, Virginia Bergstrom, Margaret Maneggia and Eva Morra. Virginia, Margaret and Eva were longtime Bolton residents and raised their families here. All four women continually helped out in this community, giving their time, energy and resources to make a positive impact.

Each of the Bolton Regional Lion Club members congratulate you and hope you continue to engage in community service throughout your life, making a difference.
