Connecticut Feline Medicine and Surgery Scholarship Established 2013

Dr. Letrisa M. Miller and her husband Christopher P. Davey were once the beneficiaries of scholarships that enabled them to complete their undergraduate education. They are pleased to now be in a position where they can help a new generation of students pursue a college education.

This scholarship is given by Dr. Miller's veterinary practice, Connecticut Feline Medicine and Surgery, to a student pursuing a career in science at a four-year liberal arts college.
