Investing in the future...

Stephanie Joan Morin Scholarship

Established 2013

Stephanie graduated from Bolton High School in 2005 where she pursued many activities including art, cheerleading, and golf. From Bolton she went on to receive a Bachelor of Fine Arts degree from Temple University, followed by a Master's degree in Library and Information Science from Drexel University.

Stephanie's thirst for knowledge was unparalleled—she chose a profession in which she would be surrounded by books and information so as to never stop learning. Stephanie also enjoyed cooking for her friends and family; she savored life the same way that she did her homemade tomato sauce or a good cup of coffee.

Stephanie was most loved for her vibrant spirit, constant consideration of others, respect for diversity, and her unique flair. This scholarship is given by her family in the hope that her legacy will live on as you embark on your academic journey and a lifetime of learning.
