## Bolton Road Race Committee Scholarship

Established 2001

This scholarship was established in 2001 by the original Bolton Road Race Committee. In previous years, any proceeds realized as a result of this annual event were donated to existing funds or organizations recognizing the accomplishments of or memorializing police officers and/or firefighters. Shifting their focus to the Bolton community in 2001, the Road Race Committee chose to endow an annual scholarship to a student pursuing a public service career. This may include such areas as Law Enforcement, Political Science, or Firefighting Technology.

When this committee disbanded and the annual road race was taken over by another organization, the committee decided that they wanted to continue the annual scholarship and contributed what remained in their treasury to the Bolton Scholarship Fund.
