

The Bolton Scholarship Fund

Investing in the future...

Brunig “Wally” Moske Memorial Scholarship Established 2009

A lifelong resident of Bolton, Wally graduated from Bolton High School in 1975 and was a member of the Bolton Alumni Association. Recognized for his business experience, his involvement with the Bolton High Solar Bolt Project and his overall contribution to the community, he was named to the BHS Wall of Fame in 2003. His three children were also members of the Bolton High community.

An entrepreneur at heart, Wally served on numerous professional and community boards including the Hartford Chapter of Building Owners and Manager Associates and the Gus Johnson Scholarship Fund. Before his passing in June of 2007, he owned and operated a successful small business producing solar control window film and image graphics.

Wally was an avid sportsman, with a passion for travel and adventure. Although he is deeply missed by family and friends, his spirit of entrepreneurship and passion for life live on and this scholarship represents his interest and concern for the young men and women of the Bolton community.
